

Prophetic Focus August 2020

By Apostle John E. Sagoe

Topic: Focus

Key verse: Hebrews 12:2 (NKJV)

Looking unto Jesus, the author and finisher of our faith, who for the joy that was set before Him endured the cross, despising the shame, and has sat down at the right hand of the throne of God

I see a month the LORD is calling the **Church** back to **focus on her assignment** in this year and season

Prophetically we are in a **month of new beginning**. So let us focus on the great harvest ahead of us as distraction time is over.

I pray that as we focus on **Jesus' supremacy** this season, may He reveal Himself mightily in our midst like never before, in Jesus' mighty name.

Watch out: **Still pray against** every unexpected attack, against any kind of accident in this summer, against anyone drowning in water.

Good news! There are **open doors** for

- encountering new friends and people that will push us forward in our God-given assignment
- overcoming health challenges
- positioning ourselves for good news and miracles this month

Let's **pray for the coming Prophetic School of Ministry** to be blessed in the following areas:

- Teaching God's word to the people
- Warning, instructing and encouraging them to live as God desires
- Hunger for the Word of God
- Discover the prophecy of your own life in the Bible
- Learn to focus on the assignment God has given you

Prophecies of the year 2020 to continue to pray for:

- I also hear this year our **faith** will play an important role.
- This year God will give us a **new level of revelation and vision**. We will see clearer in the realms of the spirit than ever before.
- Get ready: It is a year of **prophetic manifestation of our declarations**. We will see a manifestation of the anointing, and the anointed one, Jesus, will be in full operation in our midst this year. Let us seek Him like never before, because anyone who seeks Him this year will surely find Him.
- In the **medical field** I see something like a scandal that will result in health problems and complications.
