

Prophetic Word for 2023

Detailed version by Apostle John E. Sagoe

The Lord says: “Tell my people that this year will be full of surprises. **I will go with you and give you victory. I will open the heavens and lift you up. I will do unusual miracles in your lives.**

At the same time things are going to work in a **rapid speed** like you have not known it before. But don't worry, because I will be going with you and **I will give you the maximum protection**. Just **look onto me** for divine coverage and divine direction. I will lead you with **a clear prophetic focus for every month**. It will **help you to go from glory to glory**, in Jesus' mighty name.”

Church of Jesus Christ globally

Churches that are not ready for changes this year cannot survive the next two years because God will move in an unusual **speed** to **prepare** His church **for the end time harvest**.

- God is **warning** the Church: We missed the last two years of **window of opportunities**. **We must not miss the coming one**.
- Be reminded: **God is working things towards the 1000 years of millennium** where the church of Jesus Christ will rule the world again. **The full manifestation of the power of the Church** will be seen in an extraordinary way on earth, more than it was at the beginning.

Economy of the world

- **Two more years and the world will enter a severe famine we have never seen before**. In other words: whatever we are seeing now is only a warming up and a preparation for what is to come. So I hear the Lord saying: **Be ready for a time of storing and a time of saving** as the Holy Spirit is leading us in this time and season. Because I see that some **certain commodities are becoming very expensive and almost unaffordable** in our world.
- **Don't put all your eggs in one basket**. For I hear the world is going to face a **financial shaking** in both digital and paper currencies, more especially in the second half of the year.
- For many **business owners, it is a year of leaving a legacy**.
- **For Business owners with their name branded a dangerous season** is coming up. If you don't have God as your protector, it can be very dangerous and even lead to sudden death.
Side note of the author: This is a word of knowledge to explain the certain kind of people and certain kind of company that God is addressing.

- Let us pray for **business people to be patient and to understand the products** for a maximum impact. They must not miss the window of opportunity because it will come always very obvious this year.
- We pray for **business owners** for grace to receive the **Spirit of discernment to be able to act swiftly when the door of opportunity is given**. Many companies and business owners have missed their chance because they procrastinated and did not act swiftly when God gave them the possibility in 2022. But those opportunities are coming back in 2023.

Politicians and governments in general

I smell conflicts in most of the nations of the world.

- **Political confusion will increase this year** in different nations of the world like we have not seen it before. It will be like a trend that will almost become normal for many nations.
- A bit worrying and frightening is the **high level of betrayal that is on increase** among politicians.
- Likewise there will be an **exposure of political evildoers**. The Lord is saying that He will expose them seriously this year.
- Many governments will be fighting an **economic battle for survival**.

Switzerland

- A **spirit of depression will be on increase among politicians and governments**, the leaders in the land. The stress at work and in their assignment will increase the volume of depression. Therefore we have to pray for them.
- This results into a **spirit of procrastination and delay for lawmakers** in making decisions, as much of it is also engineered by **fears of failure**.
- **Critical decisions** are ahead this year in order **to move the nation forward** and to put the people in a better position because of **the coming economic crisis**. The decisions will among others have to do with
 - 1- Border-related issues
 - 2- Issues related to consumer products

Other Nations

Nigeria:

- For Nigeria's **coming elections in February 2023, we must pray against bloodshed** because the enemy is working overtime to ensure that blood is shed. The Lord is saying: **He will take control** and He will see that it does not go out of hand, even if a few people would

die during the elections or when they call the election results. But don't worry: It will not complete or fulfill the assignment that the enemy wants.

The reason is that the **spirit of corruption** in Nigeria is fighting against the Lord's chosen one who is to lead Nigeria into a new season.

- For I hear God has chosen the man called **Peter Obi as the best of the three top candidates** contesting for the elections in Nigeria. He is not a saint, says the Lord, but he is the best of the three candidates for the elections. **God has chosen him** to carry the spirit to fight against corruption in Nigeria and to **lead Nigeria to success in the coming years**.
- Therefore we have to **pray that the elections are not rigged or manipulated**, because there is a **serious conspiracy now** going on in the underworld against these elections.

Guatemala:

- We need to **pray** for the nation of Guatemala **for political oppression is on increase in this country** which is **opening doors for unbelievable atrocities and destroying the peace** of the nation, more especially 2023 going into 2024.

Poland:

- The Lord brought the picture of Poland into my spirit. And He said: It's a season for **political victory for that nation**. God is bringing up **younger minds with strategic governmental understanding and political ability** to run an office, to empower them to help them to move the nation forward.
- The **time of sleeping for the churches in Poland is over**. A move of God will hit the northern and the southern part of Poland. God is calling the Christian leaders in those regions to **overcome fear and rise against division**. **They should move on** and forget about what has happened in the past. Because these past issues are holding them backwards, but God is saying **it is time to arise and move on**.

USA:

- I hear that we have to **pray earnestly for Biden**: The man is losing strength. He is losing concentration and political focus which is affecting the decision making in the nation.
- I see **two nations that are at the verge of explosion in war** this year.
And we need to pray, for **Biden's decisions** will have an impact and **determine if these nations will escalate into this war** or not.

Sweden:

- We **pray for the spirit of control** to be **uprooted from the government of Sweden** because it leads to **national manipulation**. And with people not understanding what is happening in the spiritual realm, it works against them. So we need to pray that it will not continue to **work against the advancement of individuals**.
- **Pray because of an unusual attack in the government** this year.
- **A third opportunity of the move of God** is coming again, and this time it **must not be quenched**. When it comes to the move of God there is a quenching spirit anointing over the nation. Many moves of God have been killed in the land, and God is saying: I am giving this

third chance again. Therefore let us **pray for Sweden to rise and meet up the expectations of heaven over their nation.**

Australia:

- A **wave of depression and sadness** is coming on the nation like never before this year, **more especially on people in authority.** I hear we have to **pray for the government and Christian leaders alike.**
- I also hear there is a **serious confusion that is fighting the people in authority** in the nation, both spiritually and physically. It is not a physical war, but a spiritual, economical, mental and psychological war, and it is on increase in Australia. And because everything that starts from the head eventually will get to the body, it's **also affecting the body.**

Ghana:

- There **are external forces that are trying to creep into the country to stir up a religious confusion that will be bringing the nation a setback.**
- The government has to be careful because of **high levels of betrayal on increase among the political leaders.** As mentioned before the **exposure of political evildoers** is on increase.
- Concerning the **churches in Ghana:**

- o The churches must **come out of religion and start practising relationship and have a true lifestyle of holiness.** Because holiness has been put aside in many churches in Ghana, God is calling them into **repentance**, so they are not carried away by their ego thinking that they are a Christian nation, but actually **they are dying and going to hell because of lack of holiness** in the church.

God has a saddened heart about what is happening in the Church in Ghana because of their sinfulness.

I hear the Lord say: **Don't call yourself a Christian if you are not living like a Christian.**

- o God says that **His time of patience is running out.** He is about to move in a way that the **judgement is going to begin in the Church.**
- o God also says Ghana should not forget that **the protection over the nation is there because of the churches** that have been praying and seeking His face. And **now the churches are slacking in their covenant.**

So God is calling them back to repentance, starting with the leaders to begin to live holy and teach holiness and purity in the land.

Other prophecies

Health situation and medical world:

- I see **breakdown in medical equipment.**
- The medical world is running in such a speed that they want to **take glory for themselves** of what *God* has created, of what *God* is doing and what *God* has prepared for man. I hear

God say that **more and more medical errors will be discovered**. This **will give way for God to take over so that His miraculous healing power will be seen and the glory will go to Him**.

- **Manipulation continues in the medical field**, as it is a **race for business and for selfish gain**, but it will also be **exposed** as it continues.
- I hear the Lord say: We should not give up, because the **sicknesses in the world** are not decreasing, but **increasing**. But **God will always protect His own** and will give us victory. More especially now that some may feel less protected.
God is calling us for personal wisdom to take care of our health, in particular about what we eat and drink this year because many sicknesses are going to come from there. Be mindful because **I see danger that is coming out of food and drinks which can affect people's health** up to the point of death.

I don't prophesy death, I encourage prevention. **Because of the evil in the atmosphere each month the blood will fight the battle for us** as we embark in the operation "Holy Communion Passover Service" at the 17th of every month. So don't forget that **God has declared the victory over us even before the situation arises**.

The power of God is going to manifest through us, for us and in us this year.

And above all, the **Church of Jesus Christ** in all that **is rising** because we must not forget, **it is our Year of the God of Miracles**.

Amen.
