

Prophetic Focus of March 2023

By Apostle John E. Sagoe

Topic: Divine Healing

Key verse: Matthew 8:17

That it might be fulfilled which was spoken by Isaiah the prophet, saying: "He Himself took our infirmities and bore our sicknesses."

I see a month of **divine healing** manifesting **through our prayers**.

I hear we should get ready for deep inner healing leading to manifest healing of the soul, spirit and body this month.

I see also **things that have been hidden** in our lives **being exposed**. These things might be difficult for us to confront and deal with, but the grace of God is sufficient as we open up for these wounds **to be finally dealt with**.

I see also **all manner of emotional struggles** that are being **healed** this month **beyond our imagination**.

I hear we have to **pray against any strange looking kind of sickness like tumors or spirit of cancer** that will require to be operated before one can travel or move around in this time to come.

Let's **pray against the spirit of death and giving up in life** that is released in our world this year.

I hear we should **pray for our schools**, especially for the teachers for **divine protection** and against attacks on their health.

We must be aware of **false accusations** that are **on increase** in our world, more especially in our working places and business world.

Good news:

The Lord says as we begin the **40 days of Prayer Challenge** this month **He will be answering all our prayers, also the ones we do not pray for!** So long awaited prayers will receive results and answers that will manifest this month.

God is releasing the **spirit of unity in the Body of Christ** like it has never been seen before for His glory and fulfillment of His agenda in this endtime.

Watch out:

I see **travelling stress** that will affect businesses and organizations.

I see **expiring goods** that will result in attack of **health problems**. So let's watch out what we eat and drink this season, also in the area of medication.

Family conflicts and misunderstandings at the place of work and in ministry are on increase.

Let's stand against all this in Jesus' mighty name for a maximum victory.

Prophecies of the year 2023 to continue to pray for:

Health situation and medical world:

- I see **breakdown in medical equipment**.
- The medical world is running in such a speed that they want to **take glory for themselves** of what God has created, of what God is doing and what God has prepared for man.

- I hear God say that **more and more medical errors will be discovered**. This **will give way for God to take over so that His miraculous healing power will be seen and the glory will go to Him**.
- **Manipulation continues in the medical field**, as it is a **race for business and for selfish gain**, but it will also be **exposed** as it continues.
- I hear the Lord say: We should not give up, because the **sicknesses in the world** are not decreasing, but **increasing**. But **God will always protect His own** and will give us victory. More especially now that some may feel less protected. **God is calling us for personal wisdom** to take care of our health, in particular about what we eat and drink this year because many sicknesses are going to come from there. Be mindful because **I see danger that is coming out of food and drinks which can affect people's health** up to the point of death.
