

Prophetic Word for 2024

by Apostle John E. Sagoe, transcript

Church of Jesus Christ globally

1. Different kinds of people in the Church

I hear clearly that in 2024, there will be a **separation between the people of God and the people of this world**. Therefore, **there will be four different kinds of people** that will be **in the Church**. But God is warning us to be careful so that we don't fall in the wrong kind of people because His church globally will be experiencing four different kinds of people. If you need a scriptural understanding of what I am saying, then read Mark 4:15-20. There you will find those four different kinds of people in the Church, and these are as follows:

- There are the people nr 1, when they come to church and **receive the message of God, Satan will come and take it away from them as quickly** as possible.
- Then there are the people nr 2, when they receive the message, even though they **receive the message with gladness, it will not go deep in them**. And when trouble comes – which *will* come – when trouble comes, when persecution comes they will **give up** the message. And therefore, they will fall.
- The third kind of people in the church will also **receive** the message, **and then the worry of this world begins to arise**, the worries of this world time will cause them to be **lovers of riches** and they will be desiring things. As a result of that, it will cause them not to bear fruit and to lose the message.
- But good news! There is the fourth kind of people in the Church. These are the people I call the **“faith people”**. **They will receive the message, they will accept the message, and they will run with the message and they will bear fruit** – some thirtyfold, some sixtyfold, and others a hundredfold.

Can I prophesy: You belong to that group! I say you belong to that group in the name of Jesus! That this is also the group I belong to.

2. Altar Sacrifice

Prophecy nr 2 concerning the Body of Christ:

God said we have to **warn the Body of Christ**. The Church will be weak if we don't **wake up to understand the sacrifice on the altar**. Why? The evil world will increase more than 2023 in blood shedding. Therefore, we need as the Church to wake up to the altar sacrifice!

We need to wake up as the Church and learn and study deeply what altar sacrifice is and what an altar is. Otherwise, we and our children will be in trouble.

Because we are living in the world in 2024 that the secret societies are going to another dimension of wickedness. The kingdom of darkness is rising to another dimension of destruction. So we have to wake up. We have to wake up and we have to understand that in the spirit world, **altars are very important in the spirit world** and we have to understand that in the spirit world, **God has given us power on the altar**. We must learn how it works because originally this was given to us. And we cannot allow the evil world, the secret societies to use it against us, against our children, against our family and against our churches. We must wake up.

The Church must rise and raise an altar to stop the rising of evil in our world and blood sacrifice that is on increase this year.

3. Key Leaders

Furthermore, **the enemy wants to spiritually and physically assassinate the key leaders** by killing them physically or spiritually **because they are** the voices of the people and are **threatening the kingdom of darkness**. Therefore, if there is any year we have to **pray for our key leaders in the Kingdom**, it is **this year**. Because very, very soon we will begin to hear it. And we don't want to wait until they start falling left and right before we start praying. Therefore, we must lift them up in all our fasting and prayers as quickly and as regularly as possible.

4. Godly order in the Church

Exposure of evil leaders will continue this year more and more, because God wants to bring order in our world and in His church.

God also wants to stir up His Spirit in the world like never before. We have to be careful not to stop it. We will be seeing the move of God in different churches, different nations and different places. But God is admonishing us, more especially leaders and organized religion, to take off their hands from stopping His Spirit like they have done it in the past.

Economy of the world

In this year we are in what we call an economic transition.

That means that this will be a year where God will be giving us the **wisdom and understanding for investment and storing**. So I see many business people in our nation here and many other nations, all the way into 2025, storing and investing in the right places by the leading of the Spirit. **From 2025 onwards, the world will enter a new dimension of economic problems**. But God is giving us the warning beforehand, so that we will **be ready** for 2025.

If you believe in **supernatural provision**, then **get ready for unusual miracles**:

Activate spiritual blessings, by this I don't mean that you are doing nothing. But I mean that what you are doing, God will bless this beyond your imagination. **God will bless the work of our hands beyond our imagination.**

I also see **nations receiving creative ideas in their economic planning**, and opening of business opportunities and investments this year.

Therefore, **let us open up our heart and our spirit** as business people of the Kingdom **for this divine download.**

However, let us learn to **pray it through** as we receive these things, so that we don't fall into the hands of the wrong people.

Politicians and governments

I see the **political climate or atmosphere in different nations** of the world this year is going to be filled with **surprises** in different nations that are **running out of options** for economic strategic welfare or development of their nations. Therefore there will be an open cry for help from many nations.

Some countries with elections this year will be visited with **new** election laws and other **new laws that will not go down well** in many nations.

So I see **a lot of rioting** in different nations this year, more especially in those nations that are having presidential elections. However, **I see some new governments taking over and revising old laws to help their nation to move forward.**

Switzerland

2024, I hear will be a year where **our legislators have to sit up because there will be a lot of work at hand** – more than ever before, mainly in making decisions that have to do with political situations, more especially **how Switzerland is standing politically regarding global politics.**

Pray for Christians and churches in Switzerland (and also in Europe) **and leadership, because they are coming under attack spiritually**, that will bring a decline in churches in Switzerland.

The leaders need emotional capacity to overcome the challenges that are coming at hand in this year.

Let me explain that a bit: I saw in the realms of the spirit that churches are attacked. But because leaders are not having the emotional capacity – which in most cases is coming as a result of not having the right standing spiritually. And if you don't have the right standing spiritually, it affects the emotional capacity. And that will bring decline in churches because leaders will give up. And that means that churches will close down. So we need to pray for the leaders for emotional capacity and right standing with God in 2024.

Then furthermore there is a warning: God wants us to **pray for breaking the spirit of fear in marriage.**

Let me explain it: There is going to be a decline in marriage in Switzerland and in Europe because **fear of responsibility** is increasing. And you know when I mean marriage, I mean marriage. So we have to overcome that.

I also hear, we need also to **pray to overcome scarcity of babies in Swiss communities.** Because right now, Satan is using that as a **weapon to bring down this nation.** So in 15 years from now, if the decline continues the way it is today, we will hardly find original Swiss anymore. So we need to pray that Swiss people will start making babies and will start getting married. It can be possible to have a radical reduction of Swiss indigenous citizens because of lack of having babies and marriage.

Some of the laws that have been made in the nation on the long run, more especially against families and marriage are going to work against Switzerland. So we need urgent restoration of family values in our nation. Because this is the cause of many mental, psychological and emotional health problems.

Other Nations of the world

Portugal

I hear: Pray for Portugal, more specifically, **to be ready for what God wants to do in the nation around May and June this year.**

He wants to use the **Christian leaders** in that nation, so they **need to be ready.** I see the **spirit of confusion at work in Christian families** bringing disagreement, so that the **key people are not focused to carry out their duties** as mandated by God.

But it is also a year where **God is bringing up His Josephs and remnant** by empowering them and giving them enough **resources that can flow into the Body of Christ** to push His agenda in that nation.

Ghana

Then I hear for the nation of Ghana, God says **He will bring up new leaders** in the nation that will begin **to do greater things.** So right now, there is a **training of apostles and top leaders, more especially young people and people with young minds** that have not been contaminated. They are going to be rising because it is time that the old leaders who are hindering the flow of God in that nation to be called home. That means God will be calling them home, because he wants to fulfill His agenda.

This revelation, I saw it in Ghana but I also saw it in many other African nations: That all the old leaders in the church that are hindering the young apostles and the young leaders to arise, God will be removing them so that He can release the new breed of the people He is raising in the Kingdom in Africa.

Because **I hear, new Africa has begun.** And **the new breed of Africa are rising in every sector of the society,** more especially in the Kingdom of God, with a **takeover anointing, guided by the Holy Spirit and led by God, for Africa to move forward.**

I released this message already the 15th of December in our leadership retreat in Ghana and also in the all-night that we had that same day. So we believe for God to repeat this again, it means it's very important. **It's time for Africa.**

Let us **pray for Ghana's elections this year**. Because I see **outside interference** in the election of Ghana this year **that will not go well** with the nation. Therefore, I also see a lot of **hate and bitterness in the atmosphere during the election time**, and that will result in fighting, killing, and destroying of things. So let us pray again that God will carry that nation during those election times.

USA

I hear that **serious spiritual declining** is taking place right now in the United States of America. And that will result into **more and more problems rising in the Body of Christ** which will bring **confusion to the leaders** and will **cause people to lose their faith and not to trust in the system of the church** or the organized religion anymore.

I also hear that the **US elections are going to be very unusual this year** because they will be full of **demonstrations and riots**. So let us pray for that nation.

Pakistan

We need to pray for Pakistan because of the **unusual serious threat of attack of natural disaster** that is still on the increase **in that part of the world**.

Then I also hear that there is going to be some **political misbehavior and misunderstanding and manipulation** this year in that nation.

Great Britain/ United Kingdom

And we need to pray for Great Britain. I don't know how big that is, but I hear "Great Britain and United Kingdom". Why? **I see shootings and gun gang violence increasing as a result of mental problems that also come out of sexual molestation** and rape, and eventually leading into depression that causes this kind of violence of gangs and gun shootings on the streets of Great Britain and the United Kingdom.

Israel and the Hamas war

It is taking a new turn. **In the next six months, it will be bloody. Then in summer, I see a subsiding and I see an intervention**. Why is this timeframe is important? It is to prepare us as we pray.

Ukraine and Russia

The war needs urgent attention, more specifically on the side of Ukraine because of what is coming upon them. **If there is no outside intervention** or outside help, it will not go down well and cause **a lot of losses** of lives but also of resources **because of the strategy that Russia** is getting ready to implement very, very soon.

Nigeria

Then I hear Nigeria: We need to pray for Nigeria because **I see like a mass burial**. Even though they are already out of their presidential election year, still there is a **heavy contention going on in the spiritual and physical world** still to kill more people as a result of still fighting for power.

The **domestic world needs urgent attention** in that nation because there is **serious oppression and attack** that is going against children, women and the less privileged in the society. So we need to pray that the demonic world will not continue to feed their evil altars with those less privileged people in order to empower the politicians and those that are in authority.

Therefore, I see that **we need to ask God to help the nation to overcome the outcome of those evil words or evil altars.**

It's still because of the political fights and also in some cases it is religious fights or religious disagreements that are resulting in all manner of accidents.

Other nations

Then to finish up about the nations, I hear we need to **carry** these following nations **in our prayers**, and then maybe in the Week of the Altar we might talk a little bit more about them, but we need to carry them in our prayers, **more especially in political decision-makings and internal crisis** in their nations. And the nations I hear are:

- Germany (which some of us already know we have been praying for them)
- North Korea
- India
- Guatemala
- Poland
- Australia
- Eswatini
- Peru
- Turkey
- And many, many francophone countries in Africa

Other prophecies

The Lord reminded me the prophecy that He gave to us in 2022, that there is an increase in 2024 about the robots taking over our jobs. That is an increase like never before. And we now found a name, that is called AI.

So let us **pray that the negative side of AI will not destroy our society** because it is **rising in a very dangerous direction** that we might be shocked by the end of this year of what will happen.

I also heard that we should **pray for food poisoning** that is on increase this year. Pray that it will be **exposed** in many companies **before it becomes dangerous.**

Then I hear about child abuse in schools: **Child abuse in schools needs to be investigated also here in Switzerland** because **parents are too busy** and they don't question their children anymore. So therefore, many children are living in abuse from school and teachers in the schools.

This is a **warning for parents to talk more intimately with their children** before it triggers suicide and emotional problems in their lives.

Because I also hear that that will be **on increase in 2024: abuse that will result into emotional problems.**

Then I also hear that the nations are going to see **more and more escalation of frauds in 2024.**

We are entering **a year that will mark seven years of a strong fatherless generation** that is on increase which will result in **departing from God in many, many nations** and forsaking God and His plans.

Good news for Switzerland

I don't know why I decided to bring it towards the end. But I just say it the way God revealed it to me.

We will hear more and more **people of the younger generation that will come up with boldness** like it has never been seen before to **address issues in the nation and put a stop to a wrong direction that the nation is going**, that would lead into the declining of many things.

But not only that, I hear that **the same young-minded people are going to come out with amazing creativity** this year and beyond, that will be quite encouraging and breath-taking to **help the nation also to continue to soar high in the next five years** in the area of **finances**. Because I see many other nations declining in this area.

Finally, we will see a **big separation**, like it has been said already before, **between the true Christians and the fake**.

God is manifesting His power on the Church like never before, with the Christians that are rising to do the work of God.

So Switzerland, get ready, because this year we will see the **mighty move of God starting in our various homes**.

To the glory of God this is **a year full of the mighty hand of God**, like we have never seen it before.

Therefore, let us watch **our children**, more especially because **a lot of prophetic gifts and a lot of prophetic words will be given to them** in physical and in dreams.

I also see **in our churches the rising of new gifts and the grace to carry them out**.

And finally, finally, we are going to see **more and more unusual ways of doing church in Switzerland and in Europe** and **God will glorify Himself**.

Amen.
